RE: Draft Record of Decision, Operable Unit 13, NAS  
Pensacola

Dear Mr. Hill:

I have **completed the technical review of the above** referenced document dated November 22, 1999 (received November 23, 1999). I have the following **comments** that should be addressed in the final document.

1. Page 14 and **Appendix B**: Details regarding the Public Comment Period (including actual dates) and Comments should be updated in the final document.
2. Page 36, **Bottom of Page**: Rather than state that the Site 8 soil exposure **pathways** "do not exist", I recommend restating as is not completed because the site is paved.
3. Section 7.0, **Description** of Remedial Alternatives: This **section should be updated to include additional remedial alternatives** presented in the Final Focused Feasibility Study submitted May 3, 2000.
4. Table 7-7, **Summary** of Chemical-Specific ARARs: The Florida Soil Cleanup Goals were **promulgated August 5, 1999 in Chapter 62-777**.
5. Section 8.0, **Comparative Analysis of Alternatives**: This **section should be updated to include additional remedial alternatives** presented in the Final Focused Feasibility Study submitted May 3, 2000.
